

Datamasters Dermatology Database

3,058 Total Universe

DESCRIPTION

The Datamasters Dermatology Database allows you to reach doctors, nurses, therapists, counselors, and administrators specializing in dermatology at their home address.

Dermatologists are health care professionals that practice in the diagnosis, prevention, and treatment of skin diseases.Â Cosmetic dermatologists provide elective procedures such as liposuction, botox injections, facial hair removal, and scar reduction. These doctors, nurses, therapists, counselors, and administrators would purchase items such as stethoscopes, medical scissors, blood pressure cuffs, thermometers, hygiene supplies, diagnostic instruments, masks, hand sanitizers, tape, gauze, gloves, office supplies, pharmaceuticals, health care uniforms, beauty supplies, and laser equipment.

Purchasers of this database would include pharmaceuticals, medical supply providers, uniform suppliers, medical equipment suppliers, credit card issuers, medical gown providers, medical office furniture suppliers, computer manufacturers, software manufacturers, file storage providers, and telecommunications providers.
