DESCRIPTION

The DataMasters Internal Medicine mailing list allows you to reach health care professionals specializing in internal medicine through direct mail at their personal home address.

This mailing list would allow you to reach doctors, nurses, therapists, counselors, and administrators in the internal medicine field. Internal medicine is the prevention, diagnosis, and treatment of adult diseases. These internal medicine professionals will specialize in areas such as cardiology, endocrinology, hematology, medical oncology, pulmonology, critical care, geriatric medicine, and nephrology. These medical professionals would purchase items such as stethoscopes, medical scissors, blood pressure cuffs, thermometers, hygiene supplies, diagnostic instruments, masks, hand sanitizers, tape, gauze, gloves, office supplies, pharmaceuticals, health care uniforms, beauty supplies, and laser equipment.

Purchasers of this database would include pharmaceuticals, medical supply providers, uniform suppliers, medical equipment suppliers, credit card issuers, medical gown providers, medical imaging providers, medical office furniture suppliers, computer manufacturers, software manufacturers, file storage providers, and telecommunications providers.
