DESCRIPTION

The DataMasters OB-GYN Nurses mailing list allows you to reach healthcare professionals through direct mail at their home address.

These OB-GYN nursing specialists include Registered Nurses (RN), Licensed Practical Nurses (LPN) and Advanced Registered Nurse Practitioners (AN) who specialize in obstetrics and gynecology. These nurses are trained in performing routine pap and breast exams for female patients. They also work with patients who are pregnant or have recently delivered a baby. Obstetrical and gynecology nurses provide prenatal care, assist during labor and delivery, and assist women after delivery with postpartum care. These nurses work with obstetricians, midwives, and other nurse practitioners. They would use thermometers, blood pressure machines, syringes, scrubs, stethoscopes, masks, latex gloves, sanitary wipes, masks, blankets, hand disinfectants, scissors, linens, diapers, disposable gowns, forceps, ointments, and swabs in the course of their job duties.

Purchasers of the OB-GYN mailing list would include medical equipment providers, fetal monitoring manufacturers, ultra-sound manufacturers, lab testing facilities, ongoing education providers, nutritionists, prenatal vitamin manufacturers, pregnancy accessory providers, exercise and fitness supplies, and supplement providers.
