## DESCRIPTION

The Datamasters Psychiatric Nurses mailing list allows you to reach nursing healthcare professionals through email marketing efforts at their personal email address

This mailing list consists of nursing professionals such as Registered Nurses (RN), Licensed Practical Nurses (LPN), and Advanced Registered Nurse Practitioners (AN) who provide health care to patients suffering from mental health disorders. Psychiatric nurses assist in the diagnosis and treatment of people with mental illnesses such as schizophrenia, bipolar disorder, anxiety disorders, delusions, eating disorders, Obsessive-compulsive disorders, psychosis, depression, and dementia. They are able to administer psychiatric medications and develop psycho therapy treatment for those afflicted. These nurses are employed in mental health centers, hospitals, mental institutions, homes, and private practice.

Purchasers of the psychiatric nurse's mailing list would include continuing education providers, pharmaceuticals, mental health periodicals, medical apparel providers, hospital supply providers, healthcare providers, office supply providers, rehabilitation facilities, substance abuse facilities, and mental health organizations.
