

Osteopaths

SEGMENTS

34,606 Osteopaths

DESCRIPTION

The Datamasters Osteopaths mailing list allows you to reach these healthcare specialists through direct mail marketing efforts at their home address.

These healthcare professionals are physicians who specialize in osteopathic medicine. They complete 4 years of medical school with additional training in the study of hands-on manipulation of the musculoskeletal system. They treat and heal patients as a whole rather one single system. Osteopaths (DO) are found in both traditional medical environments and alternative or holistic environments.

These physicians will purchase linens, office supplies, medical attire, footwear, pain relieving gels, audiometers, blood pressure monitors, cholesterol monitors, calipers, catheter trays, pharmaceuticals, supplements, electro surgery accessories, gait belts, glucose monitors, nebulizers, negative air machines, shears, speculums, stethoscopes, disposable gloves, and masks.

Purchasers of the osteopath mailing list would include linen manufacturers, medical uniform providers, disposable gloves and garment providers, supplement providers, medical equipment suppliers, imaging companies, continuing education providers, health insurance providers, alternative medicine suppliers, and office supply providers.
