DESCRIPTION

The Datamasters Pediatrics Nurses mailing list allows you to reach healthcare professionals through email marketing efforts at their personal email address.

This mailing list allows you to market to nursing healthcare professionals such as Registered nurses (RN), Licensed Practical Nurses (LPN), and Advanced Registered Nurse Practitioners (ARN) who specialize in pediatrics and children's care. Pediatric nurses provide care and treatment for newborns, infants, toddlers, children, and adolescents. These nursing specialists would work in hospitals, private practice, children's hospitals, clinics, emergency rooms, and intensive care units. They would use and purchase thermometers, blood pressure cuffs, ointment, needles, syringes, bandages, gauze, stethoscopes, ear scopes, tongue depressors, children's toys, children's books, stuffed animals, medical supplies, medical instruments, uniforms, masks, and disposable gloves in the course of their duties.

Purchasers of this mailing list would include hospital supply retailers and wholesalers, pharmaceuticals, imaging companies, medical apparel providers, pediatric supply providers, office supply providers, ointment and salve suppliers, computer hardware and software suppliers, medical periodicals, children's

toy providers, continuing education providers, and healthcare insurance providers.
